

Change your settings

When you open up the **Account** tab, this is what you see:

The first page opens in **“Profile”**

You need to have at least your first name in the area titled **“Real name”**.

You then need to have a short summary of your bidding system. (This helps your opponents understand your system and reduces questions.)

Make sure that you have chosen Australia in the **Country/Region** area.

To the right of **“Profile”** is **“Settings”**
Press that title and the following page appears.

This is the **‘Pictures of cards’** slider that needs to be to the right.

While you are on this page, slide the two **‘Confirm’** buttons to the right as well.

This will reduce the chance of you mis-clicking, especially on the iPad.

You can swipe this page to see more options, and you can choose what you would prefer with them.
