

Topping up your BBO money

Sue Kelso

If you are on an iPad (or Android Tablet) and using the BBO App, then you can purchase BBO money but Apple (or Amazon) will then take a large chunk of that money.

So the most **cost effective** method is to use the internet to type in and enter “bridgebase.com”.

Once you have logged on there is a blue button with the title ‘BB\$’.

This is the screen that is seen by players who routinely use the internet to play on BBO.

When you press that button, you get a page with options that include looking at the account activity (which will give you your current total) and purchasing BB\$.

It is easy then to follow the prompts.
